

September 15, 2007

Dear Athletic Training Staff,

I would like to welcome you to Alverno College for your upcoming athletic events this year. In order to assist you with your visit, I would like to notify you of the following information and services that will be available to you.

The athletic training room is located in room AF104, across the hall from the Gymnasium. This room will be available to you an hour and a half prior to games as well as immediately after for your taping and treatment needs. A certified athletic trainer will be provided to assist you with anything you may need in your game preparation along with being present throughout and after the event. A physician will either be present or on-call for all events.

**The following will be available in the athletic training room:**

Ice, hydrocollator, electrical stimulation, ultrasound, hot and cold whirlpools

**During competition, the following will be available on the bench:**

Water, cups, ice, ice bags, emergency equipment (splints, crutches, etc.), biohazardous waste disposal material

The nearest hospital is St. Luke's Medical Center. It is located at 2900 W. Oklahoma Avenue.

If you are not sending an athletic trainer with your team, please provide a kit with supplies needed to assist your team with taping and treatment.

If you have any questions, please feel free to contact me at any time. Alverno looks forward to hosting your team in the near future!

Lindsay Scott, ATC  
Head Athletic Trainer
